THERMAL BOND™ INSULATION SYSTEM

The Thermal Bond™ Wrap Insulation System is standard on all Cottage Spas™ models and utilizes three key components in providing efficient heat retention and lower operating costs. First and foremost is the spa cover that seals in the heat from the top. Secondly we use the Thermal Bond™ Wrap Insulation to retain warm air that is created inside the spa cabinet. Thirdly, the sealed base helps keep warm air in and cold air out of the bottom of the spa cabinet. These three components allow you to be soaking in a spa that is designed to be ready when you are.

THERMAL BOND™ FULL FOAM

Thermal Bond™ Full Foam is designed as an optional upgrade insulation. This system provides a higher level of heat retention inside the spa cabinet. Ask your Dealer about model availability.

MULTI WEATHER™ EXTERIOR

The Multi Weather™ exterior is designed as a low maintenance and durable product. It is designed for easy care while continuing to look great for years to come.

MULTI CLEAN™ SYSTEM

Always clean, always warm, always inviting. The Multi Clean™ System is customizable allowing proper circulation in combination with cleansing Antimicrobial Filtration, providing spa water that is maintained efficiently and effectively.

ANTIMICROBIAL FILTRATION

The Antimicrobial Filtration is designed to inhibit odor, mold and mildew on the surface of the filter cartridge. The Multi Zone™ system is designed to circulate water through these Antimicrobial cartridges. This will ensure your spa water has been properly filtered.

MULTI ZONE™ OZONE

Ozone, a natural sanitizer, will help in providing a better soaking atmosphere in your spa water. The Multi Zone™ ozone generator is standard on your Cottage Spa.

CUSTOM CIRCULATION SYSTEM

Cottage models have Customizable Circulation Cycles designed for your lifestyle. This system can circulate and filter thousands of gallons of water using up to four different circulation cycles.

COTTAGE SPAS™ OPERATIONS CENTER

The Operations Center contains Lifestyle Programming spa functions to fit all user preferences and schedules. The Horizontal Mount Heater thermostatically keeps the spa always ready to use in the most efficient way possible.

FEATURES AND OPTIONS

SARATOGA LED LIGHTING •

Our Saratoga LED Lighting system is a standard feature on the Cottage Spas Line. This LED System uses key locations throughout the spa, offering an array of bright digital colors and sequences to increase your spa use enjoyment.

SARATOGA SOUNDS™ •

Enjoy music in the comfort of your spa with our Bluetooth stereo upgrade. The Saratoga Sounds™ system includes Bluetooth Streaming Audio, Dual Speakers and a Subwoofer to fully immerse you in Saratoga Sounds™!

DUO TONE™ JET ACCENTS •

Duo Tone™ Jet accents are standard features on the Cottage Spas. They provide a modern look highlighting the spa's appearance.

RELAX STREAM™ WATER FEATURE •

Our Cottage Spas LED Water Feature is a standard feature on the Cottage Spas Line. This system uses streams of cascading water to enhance the spas atmosphere and increase your spa use enjoyment.

*Not Available on Glenwood

THERMAL BOND™ FULL FOAM •

Thermal Bond™ Full Foam is designed as an optional upgrade insulation. This system provides a higher level of heat retention inside the spa cabinet. Ask your Dealer about model availability.
