Price Adjustment Announcement

Dear Valued Partner,

Ongoing geopolitical disruptions in the Middle East, including impacts to critical energy and shipping corridors, continue to create significant volatility in global raw material markets. Despite extensive mitigation efforts, these conditions have resulted in sustained cost pressures, making an additional supplemental pricing adjustment necessary. This adjustment is separate from and in addition to the price change announced on March 16, 2026.

Effective for shipments on or after **May 25th, 2026**, a line-item surcharge will be applied as follows:

- **5% surcharge** on *Avonite™ Solid Surface*
- **10% surcharge** on *Acrysan™, Acryspa™, Acryswim™, Avonite™ Flex, Altair™, Altair Plus™, Quarite™, and Quarite Plus™*

The decision to implement this action as a surcharge is intended to provide flexibility, allowing pricing to adjust in alignment with market-driven cost increases or decreases as conditions evolve. This approach avoids embedding permanent increases into base pricing and enables timely downward adjustments as volatility subsides.

We recognize the challenges presented by these conditions and greatly appreciate your understanding and partnership. Should you have questions or wish to discuss planning strategies or demand outlooks, your account manager is available to assist.

Sincerely,

Daniel A. Rustin
